

Your EZ Path to a Bigger Benefit: Start Low... Then Grow!

Increase your insurance benefit amount over time with Trustmark's EZ Value.

How does EZ Value work?

EZ Value is an easy way to **increase the benefit amount** of your Trustmark Universal Life, Universal LifeEvents, Critical HealthEvents and/or Critical Illness coverage.

If you elect EZ Value, your rate increases by \$1/week annually for a set number of years.

Your benefit will then **increase by the amount that the additional \$1/week in premium purchases**, without any proof of health required. Increases apply to all benefits tied to your benefit amount, including any benefits for long-term care services.

We'll send you a letter in advance of each year's increase, showing you what your new rate will be, as well as your new benefit amount.
